

Traffic and High Visibility Safety Products

**DSI SAFETY INC. KNOWN AS DYNAMIC SAFETY INTERNATIONAL
IS A CANADIAN OWNED AND OPERATED COMPANY.**

CANADIAN

DSI Safety Inc. known as Dynamic Safety International is a Canadian owned and operated company.

Our goal as a company is to manufacture as many Canadian made products as possible in order to create Canadian jobs.

We currently have 3 manufacturing facilities employing over 35 people and this is only the beginning. Our plant in St-Eustache, Quebec, manufactures safety footwear and produces our first aid products. Our plant, located in Morrisburg, Ontario, manufactures all our injection molded made products such as Hard Hats, Visors, Headgears and Brackets, Auto-Darkening Welding Helmets, First Aid boxes, etc.

Mississauga, Ontario, is also where we have recently opened a Fall Protection manufacturing plant. And there is still much more to come!

As for our Traffic Safety products, it is impossible for us to manufacture these locally as the labor content in these products is a significant amount of the total cost. Nevertheless the designs of these

products have been conceived locally and the manufacturing of these products are following our strict quality standards. This allows us to offer pricing that is very competitive. Although we do not create manufacturing jobs we do create design, distribution sales and administrative positions.

We can also personalize your traffic products which are also done locally.

PRODUCT OFFERING

We offer you a complete line of goods for road safety and a range of products such as Head Protection, Eye and Face Protection, as well as First Aid Products, Safety Footwear and Fall Protection.

We have a vast selection of Traffic Safety products with more than 30 different items to meet all your needs, for the summer and winter, in both good and bad weather, including our product range of safety vests, safety T-shirts, sash belts, rainwear and 3 in 1 winter suits.

Our products are offered in various sizes: small, medium, large, XL as well as some offered in sizes

such as 2XL/3XL and 4XL/5XL.

CSA

Most of our Traffic Safety products meet or exceed CSA regulations. True, there is no CSA certification for Traffic Safety products but there is a written CSA design standard that regulates the design and production of the fabrics and reflective materials used in the fabrication to ensure maximum protection for all wearers.

OUR GOAL

No compromise on quality! We will sell only quality products. We will offer the best service levels in the industry. We will be competitively priced. We will offer only CSA certified products by CSA Canada to our customers whenever possible. We will do our best to answer all of the needs of Canadian workers in regards to Traffic Safety Products. We will do our best to manufacture as many of our products in Canada to create more Canadian jobs.

Always remember: at Dynamic our mission is to concentrate on Comfort, Fit and Protection so you can focus 100% on your time working safely.

CSA Traffic Vests

MEET & EXCEED CSA Z96-09
REGULAR DESIGN

TSV20P16

HI-VIZ ORANGE

MODEL NO. TSVOP16

FEATURES & BENEFITS

- 2" DYNA-BRITE™ Lime prismatic CSA compliant reflective material
- Orange CSA compliant hi-visibility tough wear polyester material
- Meets CSA Z96-09 and ANSI Class 2 Level 2 requirements
- Horizontal 360 degrees stripe around the body plus 2 vertical stripes in the front and an X in the back providing the worker total protection as they move to be seen from all angles
